Source: U.S. Census Bureau Census 2000, table P76 data set SF3.

Notes:

A household includes all the people who occupy a housing unit as their usual place of residence.

A family is a group of two or more people who reside together & who are related by birth, marriage, or adoption.

To maintain confidentiality, the Census Bureau applies statistical procedures that introduce some uncertainty into data for small geographic areas with small population groups. The census results in this table contain sampling error and nonsampling error.
